

## DOCUMENT STATUS

The following documents are under review by the agencies:

- Western Early Transfer Parcel Remedy Complete Certification Letter
- Draft Final Remedial Investigation Report for IR Site 05/Dredge Pond 7S/Western Magazine Area
- Draft IR Site 05 Time Critical Removal Action Completion Report
- Draft Investigation Area H1 Resource Conservation and Recovery Act (RCRA) Closure Certification Report
- Draft Investigation Area H1 CERCLA Remedial Action Completion Report

The following document is under review by the Navy:

- Draft Investigation Area H1 Post-Closure Permit Application/Post-Closure Care Plan

## IR SITE 05 ADDITIONAL EXCAVATION

Post-excitation confirmation samples of the excavation floor and sidewalls of the three IR05 locations excavated in April indicated that one sidewall from two of the excavations exceeded the IR05 Time Critical Removal Action cleanup goals. An additional step-out excavation of these two sidewalls was completed today (May 26<sup>th</sup>). Confirmation samples were collected to determine if the remaining lead and diesel contamination was removed.

Excavation to remove diesel contaminated soil at IR05

## INVESTIGATION AREA H-1

Long-term maintenance and monitoring of IA-H1 continues. Approximately 1,300 gallons of oil was collected within the oil/water separator from the landfill perimeter groundwater/leachate collection system. The oil was removed by vacuum truck and transported off-site for disposal.

## SAN PABLO BAY TRAIL

Some minor grading of the trail surface has been performed this month.

Portion of trail adjacent to eastern wetlands
